KDOT to survey bridge on K-146

The week of March 21 the Kansas Department of Transportation (KDOT) plans to start a survey for a project that would replace the bridge over Slough Creek on K-146. The bridge is west of Walnut. The length of the survey is 1,500 feet based on the existing highway alignment.

KDOT expects the survey to be complete by April 29. Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor. A member of the survey crew will contact property owners or tenants for permission to enter private property. KDOT Field Survey Project Manager Joseph Bowen will manage the survey. Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
